<b>Question 16 (4 marks)</b>	<b>Marks</b>
------------------------------	--------------

'Modern methods of disease control place more emphasis on prevention than on treatment.' 4

Discuss this statement using at least ONE example in your answer.

Currently in society more emphasis is being placed on the prevention of a disease rather than the treatment. This is part of the New Public Health Approach & the Health Promotion initiatives.

Cardiovascular disease <sup>(CV)</sup> is Australia's Number 1 killer, but currently the lifestyle factors causing CVD are being addressed such as: smoking, high fat diet, lack of exercise are being addressed & those at risk of CVD are being educated in an effort to reduce the incidence of CVD in Australia.
