

Good morning, teachers and fellow students:

I am so glad to have ~~this~~ <sup>the</sup> opportunity to speak in today's assembly. I will talk about our community's heritage - Rocky Creek Reserve <sup>traditional</sup> today.

We all know, Rocky Creek Reserve is part of our community, it has been stayed there for decades. Our grandparents, <sup>even</sup> or their parents created such heritage for us, and it is a valuable treasure for our community.

However, <sup>you</sup> ~~we~~ are aware ~~that~~, the Rocky Creek Reserve is no longer used by our community! Why? Rubbish, deterioration of the environment, contaminated water stream, cutting down of native trees, and vandalism, they all jeopardise our environment, and our reserve is deserted. It is a tragedy for us and our community.

But hey, friends, we can make the Rocky once popular picnic area live again! We can make a difference if we work together.

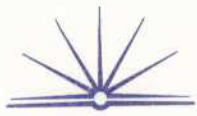

A group of friends can ~~voluntarily~~<sup>volunteer</sup> spend just a few hours in next two weekend, and help us to remove rubbish and weeds, plant native trees and repair facilities in the Rocky Creek Reserve.

We call it 'Rocky Creek Regeneration Project'. Work will start each day at 10 o'clock but you are welcome to come whenever you can. Just give up a few hours ~~to~~<sup>which you might</sup> sit there and doing nothing, you can show the people how good you are, how responsible and initiative <sup>you are</sup> in our community. We can change the environment, friends!

OK! now comes to the gift, ~~to~~ To celebrate completion, and congratulate all the people involved, all volunteers are invited to a free and delicious BBQ party at Rocky Creek on Sunday, the ~~end~~<sup>second</sup> of December at six pm. Then you can discover how much you have done and show your

parents and siblings, and said to them ~~it~~ with  
proud  
'I am not a useless nerd!'

Thank you for listening ~~for that~~, we strongly  
encourage our students' participation in this  
project. ~~For~~ If you have any questions, please  
ask me in the lunch time, or get this  
advertisement and ring Sue for further  
information.

Yes! We can make the difference!
