

A very good morning to our principal, _____, to all teachers and my fellow students. I delighted to be here to share with you some information on a regeneration project called the 'Rocky Creek Regeneration Project'.

I'm very sure that most of you would have known about this voluntary project, ^{through advertisements everywhere.} Well, as you can see, the Rocky Creek Reserve is no longer in use by our community and is practically dead. I feel that it'll be a tremendous idea if all of us would be able to participate and volunteer for this cleaning up, regeneration project. It'll be good if our community are able to gather together again, have fellowship with one another and make the whole reserve lively again.

The community will be eyeing to make this once popular picnic area live again in just two weekends. You might ~~think~~ think it's impossible but if we are all able to get together for 2 weekends, just two weekends, I'm sure we'll be able to do it. What we're all going to do is get a group of friends, a group of probably 10 p., and we're going to remove all the rubbish and weeds from the place. I think it'll be great if you're able to bring your own equipments and gloves as I don't think that the local community will

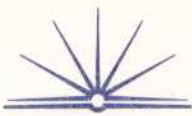

be able to provide ~~all~~ for all.

Besides that, we need to keep in mind also the greenery of the place. ~~The~~ We have lots of trees and plants growing in our gardens and our homes are ~~with~~ beautifully and well decorated. Therefore, I suggest again that we bring some trees or colourful plants and flowers to plant. Of course this would be done after the ~~second~~ ^{first} week of cleaning up. So, you don't have to bring in on the first weekend, but only on the second weekend after the whole place ~~has~~ ^{has} been cleared up. We would most definitely encourage you to bring some native trees and plant it. It'll reflect our loyalty to our country and community. I hope it will not be much of a problem.

Another aim of this project is to repair the barbecue and picnic facilities which were once frequently used by us. It'll be great if we can cement ~~up~~ the place up and do some maintenance after everything is done. I'm quite sure that this project will be a boon to further development and beautifying our community.

Just for your information, the regeneration project work will start at 10 o'clock each day but you can be there anytime you wish, which means that after school hours you can still give

a helping hand. And after toiling to clean up the place, all volunteers are promised a free barbeque party at Rocky Creek on Sunday, 2nd December at 6pm in the evening. This is to celebrate the completion of our hardwork and also the success of ~~our project~~ this Rocky Creek Regeneration Project. For more information and further details, ^{you can} please ~~get~~ contact Sue on 1800 623 004. An advertisement will be put up on ^{the school's} ~~our~~ notice board after this assembly.

This will be the end of my sharing. I hope to ~~see~~ see all of you there. We hope to make a history ~~of~~ out of this event ~~and~~ and we are all going to be proud of it.

Thank you.
