Dear Sir / Madam,

I'm writing to you regarding the increase of adventure activities. I think it is great that young people are getting involved in such activities, and pulling themselves out of bad habits. However, I also think that it is ^{there are} very dangerous activities that could be life threatening if certain individuals

do not know what they are doing. I think all individuals involved in these certain activities must clearly know and understand the danger of the activities. Instructions must be clearly understood by all members.

The increasing popularity of adventure activities gives us ordinary people to experience the wild side of things.

I am very glad and happy that these adventures are increasing. Adventure activities benefit all of us young and old, and it is not a bad habit that we could get harmed in, if we know what we are doing.

Yours

Yours sincerely
