

Question 2.

The area of study that I have learnt this year is called perspective. ~~Perspective~~ Different people have different perspectives. perspective is influenced by individuality, personal history and cultural background. Perspective is the way of viewing and special one that influenced by people's culture show in the text "Gracey" by ^{James} Moloney. Also the video "Through Australian Eyes" by William Fitzwater. The Poem "The Door" by Miroslav Holub in the stimulus changing booklet. The other related materials are "Young, harassed and Black" by Debra Topson, include the article "Aborigines fear Ruddock plan is attack on culture". These texts show how perspectives are shaped by the composers.

~~The text "C"~~

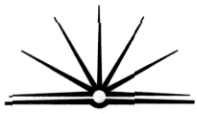

In the first place, the text "Gracey" to show many perspectives ^{are} base on the same thing. Also the composer using the first characteristic to telling their own stories. Gracey thinks that her and her brother Dougy are very different and she is not belong in the Cunningham town "He's different. I'm different. We just don't have in common any more". But she feels very angry and racism when the police treated her brother "What so he can't be treated like shit". Lately, she starts interested in the Aborigines history because through all the times and event have happend. There fore she ~~is~~ begin interested in "I'm just interested in the Aborigines history ones". The composer using Gracey to create his ~~perspective~~ changing perspective. Gracey feels that she is belong and fitted in

the black society "It's not Grace. I'm Gracey". ~~There~~ so she decide to write a history book about a Aborigines.

Also, the composer using Trend to show the contrast in perspective. Trend come from the white society but he has a positive about black people special is Raymond. But his perspective is changed when Raymond was drunk and all people in the town waited for the money every second weeks. He starts ~~racism~~ discrimination "I don't think these people understand what's really important." He has a negative ~~about~~ toward black people- when he called "the boongs" "I'm sick of the sight of them".

Then in the video 'Through Australian eyes'. The composer using

first character to want back to their origin country to show how their perspectives are changed. Rosemary Angostino in Italy. Before the journey her perspective is influenced by her grand-parents. But after the journey she has a positive about that country "there are more cars, more people". Her perspective is influenced by all her experiences in Italy.

Secondly, perspective of Jessie Thandy in India. She lives in Australia but she is confused whether she is more Australian or more Indian. So, she decides to go back to her country. Before the journey she has a knowledge through her parent. After the journey she feels sorry and empathy for all the poor

condition other there. She is more confuse because people ~~other~~ in India "People are so kind".

Lastly, perspective of Ellen. Ellen wish to go to China to find out the identity and the security. After the journey, she feels more confidence and fitted in Australian society. The reason that China is not her home because she can't speak the language and feel alone.

Also the poem "The door" by Miroslav Holub. Holub using the metaphor technique to create a personal perspective. That person is always stay inside and never get out of the house. He/she thinks that the door is protected from the dangerous and have a security

but feels alone when the door is
closed. The sentence "~~Open the~~
"Go and open the door" repeated
all over the poem to highlight
the important point. Go and open
the door event outside there
is a beautiful "a tree, or a wood"
"or a magic city". Maybe out there
are a nature, a view, peace and
beauty "a garden". Lastly, the person
perspective is changed by open the
door event outside there is dangerous
"the darkness". But at least have
a try.

The related material is "Young
harassed and Black". To show perspective
of Jeffrey Ah-see ~~feels~~ thinks that
the treatment unjust and unfair
of white society to black people.
"Everytime I walk around, they have

to pull me over for something and search my pockets". Also he wonders why he can't walk the streets of Wellington in peace.

Finally, the article "Aborigines fear Ruddock plan is attack on culture". ~~to show~~ For Mr Ruddock - his five point plan is fair and have a right to all Aborigines people. Also he doesn't see where is the attack "I don't know where they think the attack is".

As a result, perspective is influenced by individuality, personal history and cultural background". For instance Jeffrey and Gracey have in common in the treatment of white society toward black people

Also the composer using the different characters to view their different perspective. The contrast in perspective is Gracey and Trend. Therefore cultural background is a strong influenced in perspective
