

Good afternoon, boys and girls. Today's topic is learning strategies for study. Have a good study way will be help you get a good result.

I'm a Year 12 student, and I will graduate from this school after <sup>HSC</sup> exam, so I want introduce three useful learning strategies for study to you.

Firstly, making notes from class is very important, because the teachers teach in class, the notes are the most important for the lesson that the teacher want you to make notes. These notes will help you revision your subject everyday or before the exam.

Secondly, Distinguishing between fact and opinion. Distinguishing will deep your memory of the questions. Find the differences between fact and opinion, you will getting more thoughtful when the fact is different to your opinion. It's a good way to practice your brain.

Last one, is Analysing an assessment question. The assessment question is teacher think is useful for practice and get ready for exam. Learn how

to analys the assessment question, help you to pass the exam.

These are my main opinion of ~~my~~ mine. Hope there learning strategies ~~st~~ could help you. Thank you everybody to listen.
