

2002 HIGHER SCHOOL CERTIFICATE EXAMINATION
Geography

Section II (continued)

Marks

Question 17 (7 marks)

- (a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000. 1

$48 + 48 = 96$ ~~96%~~ 96%
male = 48% , female = 48%
.....
48% + 48% = 96% Total population
in 2000 = 17.8 million.

- (b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world. 2

10-40
1.) Majority of people in middle age group ~~10-40~~
due to the factor of they are able to work and
be productive in factories.
.....
2.) Maximum amount of 0-9 children due to the
fact that the 10-40 age are having children.

- (c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade. 4

Health issue Over populated hospitals due
to living conditions, unhygienic way
of living - due to lack of education
and poverty.
.....

Social issue Not enough government funding
to schools - not enough schools or
teachers to educate the younger
generation - cycle of poverty cont.
.....
