Marks

Question 18 (5 marks)

Refer to Sources D, E and F.

An environmental impact report must be written before drilling for oil in AR 3593.

- (a) From the sources, identify ONE ecosystem that could be placed at risk as a result of drilling for oil. 1

An Aquatic ecosystem

- (b) Outline TWO likely impacts that the drilling could have on the ecosystem identified in part (a). 4

Two likely impacts the drilling could have on the Aquatic ecosystem is -?

- The killing of the Natural Vegetation
- The killing of the fish etc

The oil alone has so much chemicals which pose as a threat to anything biotic, and the drilling of oil would put it at risk.
