**Geography**

**Section II (continued)**

---

<b>Question 19 (7 marks)</b>	<b>Marks</b>
------------------------------	--------------

- (a) Using Source I, describe the spatial pattern of the global production of oil in 2000. 3

.....In looking at source I it is.....  
clear to see that the majority of  
the world's oil production is in.....  
the middle east (67%). The other  
33% is fairly distributed with.....  
Central South America producing.....  
slightly more than ~~Africa~~ the other countries  
and Western Europe producing the least amount

- (b) Describe TWO factors influencing the future direction of a global economic activity you have studied. 4

.....If too much oil is removed and  
the supplies are diminished then.....  
economically the production of.....  
oil will cease to function. The.....  
environment needs to be sustained.....  
to ensure further activity. nsu!ts.....

.....Government legislation can impact  
on oil production as laws can.....  
be made to cease operation in order  
to protect humans or animals.
