

11- Speer played a significant role in the Nazi war effort as he served & was loyal to Hitler throughout his years of power. Speer served Hitler as best he could & always exceeded Hitler's expectations, among others. Everything thing that Speer was assigned to he did without question & claims to have no knowledge of the importance

of anything else. In the Nuremberg trials of 1945, Speer pleaded not guilty of the 4 counts indicted. ~~The~~ Speer claimed that throughout his years of service to Hitler, he never once knew of the maltreatment of prisoners in concentration camps nor of anything else that many other members of the Nazi party had been ~~then~~ charged of committing.

Speer claimed to have dedicated himself to Hitler, to Germany & to his Architectural work & had no apparent awareness of maltreatment & other important events with the Nazi war effort.

Because of this, Speer was found

innocent of those charges not, yet was found guilty on charges of taking part in war effort with the Nazi party. For this he was sentenced to 20 years.

In conclusion, the statement noted can be somewhat correct yet there is truth at the base of it.
