

Question 21 (continued)

- (c) Assess the impact that the health status of Australians has on the provision of health care facilities and services.

10

the ^{impact} that health status has Australia on the provision of health care facilities and services are - better facilities in hospitals, cutting down the list of medicare, ~~privi~~ cutting down the waiting list on medicare etc. and in Australia the medicare system is ~~any~~ an easy way ^{for} that ~~in~~ us individuals to have easy access to ~~rd~~ doctors, hospital, cheaper prescription etc. . . . if we were to cut down the number of people that could afford to pay for private insurance than the waiting list for the low-socio ~~economic~~ economic people would have a chance to get the facilities they need. Instead of them waiting a long period of time to have something surgically down the waiting list would be much quicker for them to get the facilities they need. There should be better facilities in hospital like more beds and facilities so that patients can go in and out as quickly as possible

Question 21 continues on page 12

Question 21 (continued)

The government should stop wasting money on stupid things and putting more money into health facilities as our population is decreasing rapidly.
