Part B – 40 marks

Attempt Questions 21–26

Allow about 1 hour and 10 minutes for this part

Answer the questions in the spaces provided. These spaces provide guidance for the expected length of response.

Question 21 (8 marks)

- (a) Outline TWO socioeconomic determinants that contribute to health inequities experienced by Aboriginal and Torres Strait Islander peoples. 3

Aboriginal and Torres Strait Islander
people are affected by a ^{variable} ~~vary~~ amount
of determinants that contribute to inequities,
two of these would be their lack of
access to health services and their
lack of employment (unemployment)
which create a barrier for them to access
health facilities.

Question 21 (continued)

- (b) Describe the roles that individuals, communities and governments have in addressing health inequities experienced by Aboriginal and Torres Strait Islander peoples.

5

When individuals, communities & governments take part in addressing health inequities they each have their own part in the process. Individuals take part within their community to plan and build a healthy public health policy, in conjunction a community is supposed to empower and encourage individuals to take part in the process. Governments do their part by providing funds and doing research.
