Question 18 - Equality and differences.

Assess the possible impact of maintaining existing inequalities for ONE society you have studied.

Afganistans society.

If existing inequalities stayed the same as they did in Afganistan then ~~we would~~ possible death rates of young women well increase due to the men over powering over women. Changes need to be put in place in order for women to succeed in life and to be on the same ~~level~~ level.

If the taliban ~~is~~ and war keep going on then the future will be less happy.

Fathers need to look after their family and macro world. New laws need to be put in place so that young women aren't forced into an arranged marriage. They should be aloud to choose for themselves and not <sup>be</sup> given away to be used as a slaves.
