

Q) i

Question Part

Hajj is a ritual pilgrimage which each muslim must complete in their lives, as long as they have the funds and are capable of it physically. If not, it may be completed by another member of the muslim community with the means. Muslims partaking in Hajj must not have any debts or grudges. Within Hajj ~~the~~ muslims complete the path taken by Abraham and go to Mount Arafat where it is believed the Angels of Allah will forgive them and listen to their prayers.

a) 11

Question Part

The Islamic community holds great importance within Hajj as it is their that their beliefs of the community are greatly reflected. Within Hajj the true nature of Islam, to come together as one under Allah, is shown. Furthermore, the stoning of the jamarat symbolises their belief of shunning evil and Satan just as Abraham did. Furthermore, within Hajj the belief in equality and unity of the Muslim adherents is further represented in their wearing white, which makes them all uniform and equal.

b

Question Part

Environmental ethics within Islam is a core part of their religion. Muslim adherents hold the belief as it is written in the Quran that as ~~God~~ Allah created everything, it is thus important to respect the environment. Additionally muslim adherents believe that Allah left them in charge of their surrounding environment. Environmental ethics is an influential teaching also as it is believed that to hurt the environment in any way would hurt and sin against Allah as he surrounds them as part of the environment.

In conclusion, environmental ethics has an influential effect on the lives of the adherents as it is part of Allah as Allah created the environment and put the ~~the~~ adherents in charge of it thus looking after the environment is a greatly integral part of the religion which is Islam.
