Answer the questions in the spaces provided.

## Question 16 (6 marks)

There are a number of chemicals and hazardous products used in the automotive industry.

What are the THREE ways that chemical/hazardous products can enter the human body? Explain in each case how you would protect yourself from this happening.

(i) Engine Coolont - This could be prevented from
entering the body by vearing gloves So
that it does not make contact with heards.
Sately goggles would also prevent it coming
in contact with your eyes.
